

### REMARKS

The courtesies extended by the Examiner to the undersigned attorney-of-record during our brief meeting on July 1, 2008, and especially on such short notice, are acknowledged and are very much appreciated.

The purpose of this Amendment is to put the required captions on each claim (e.g., "currently amended") and there have been no substantive changes in the claims from the document (previous Amendment) filed on March 26, 2008. That Amendment had not been entered because of the aforesaid informalities.

Moreover, the "Remarks" contained in the March 26<sup>th</sup> Amendment are incorporated herein.

Additionally, the enclosed two page exhibit clearly illustrates the substantial differences --- operationally and structurally --- between the applicant's claimed invention and the cited references and thus highlights the patentable novelty thereof.

It appears that all matters have been addressed satisfactorily, and that the case is now in condition for a complete allowance; and the same is respectfully urged.

However, if the Examiner has any comments or questions, or has any suggestions as per MPEP 707.07 (D) and (J), for passing the case in condition for final allowance, she is respectfully urged to contact the undersigned attorney-of-record at one of the telephone numbers below, so that an expeditious resolution may be effected and the case passed to issue promptly.

Respectfully submitted,
